

LANCER AUTONOMOUS ROBOTICS CLUB

PARTNERSHIP PACKAGE

2026 - 2027

ABOUT OUR TEAM

Lancer Autonomous Robotics Club (LARC) is a student-led robotics team at the University of Windsor dedicated to advancing autonomous systems across ground, aerial and marine platforms.

Our team brings together multidisciplinary engineering, computer science, and business students to design, build, and deploy high-performance autonomous vehicles for national and international competitions.

OUR MISSION

To cultivate top-tier engineering talent, drive hands-on technical innovation, and establish a legacy of excellence in autonomous robotics.

WHY SPONSOR US?

Partnering with LARC directly connects your organization with the next generation of engineers, developers, and problem solvers. Your support funds critical hardware, manufacturing, travel logistics, and competition entry fees while offering your brand high-visibility marketing and direct recruitment opportunities.

WHAT YOUR SPONSORSHIP FUNDS

- Hardware & Components: High-performance microcontrollers, sensors, flight controllers, and propulsion systems.
- Manufacturing & Prototyping: Custom PCB fabrication, CNC milling, and 3D printing supplies.
- Competition & Operations: Registration fees, safety equipment, transport, and field testing setups.

PARTNERSHIP TIERS

Tier	Donation	Benefits
Base Level	\$100+	• Company Logo on Website • Monthly Progress about our robot
Bronze	\$500+	• Small Brand Placement on the robot • Small Placement on Apparel & Banner • Acknowledgment on Socials & Events • Company Logo on Website • Monthly Progress about our robot
Silver	\$1500+	• Medium Brand Placement on the robot • Medium Brand Placement on Apparel & Banner • Acknowledgment on Socials & Events • Company Logo on Website • Monthly Progress about our robot
Gold	\$3500+	• Large Brand Placement on the robot • Large Placement on Apparel & Banner • Acknowledgment on Socials & Events • Company Logo on Website • Company Pitch / Recruitment Session • Monthly Progress about our robot
Platinum	\$5000+	• Large Brand Placement on the robot • Preferential Treatment on brand location • Large Placement on Apparel & Banner • Acknowledgment on Socials & Events • Company Logo on Website • Company Pitch / Recruitment Session • Custom Demo / Lab Tour Visit • Monthly Progress about our robot

IN-KIND & PRODUCT SPONSORSHIP

We strongly welcome in-kind donations and strategic equipment partnerships. Non-monetary support lowers our operational costs and gets your hardware into the hands of student engineers.

- Components & Materials: Sensors, motors, ESCs, raw materials (carbon fiber, aluminum), or testing equipment.
- Manufacturing & Services: PCB manufacturing/assembly, rapid prototyping, CNC machining, or software licenses.
- Perks for In-Kind Partners: In-kind sponsors receive tier benefits equivalent to the fair market value of the hardware or services provided.

CONTACT INFORMATION

If you wish to partner with our team, please email our treasurer Lukas Waller at larc@uwindsor.ca.
